## PRODUCT DESCRIPTION

The REGULATOR emergency oxygen resuscitation kit is an essential tool for both medical professionals and trained first aid personnel. It is designed to provide initial treatment for conscious patients during medical emergencies and to assist in administering oxygen during CPR while waiting for emergency services to arrive. The Regulator Oxygen Resuscitation Kit is versatile and designed to fit a C-sized oxygen cylinder, making it suitable for use in a variety of settings including workplaces and communities. Please note medical oxygen and cylinder is NOT included in this kit and must be purchased separately.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
