P2V Respirator

Code # FFP2-HY8222

Standards:

HY822
P2V

AS/NZS 1716
Lic SMKH 20566

690991

Product Description:

PIP Flat Fold Disposable Respirator Certified to AS/NZS 1716. High Particle filtration with low breathing resistance. Exhalation valve to reduce temperature and humidity build up inside mask. Pigeon face profile design, elastic straps and nose bridge seal for perfect fit. Made from poly-propylene melt-blown filter material which is an inherently water repellent material. This makes these less troublesome when it comes to considering microorganisms.

- Protects against mechanically and thermally generated health hazardous dry and liquid air-borne particles.
- High quality filter material for capture of metal fume, wood dust, fibreglass, silica, asbestos and liquid mists
- Respiratory protection when sanding, grinding, welding and spraying water based liquids
- Nose seal for easy adjustment
- Individually sealed for hygiene and carrying convenience

Applications:

- Mild Steel Welding
- Sanding and Grinding
- Mining Applications
- Building and Construction
- Manufacturing and Assembly
- Gardening and Yard Work

Technical Data:

P2V particle protection, exhalation valve, non allergenic straps, flat fold respirator, outer material polyester needle punched fabric melting point at 255°C, 230 - 240°C softening, normal use temperature of 210°C or below, filter material polypropylene melt-blown filter. Fabric melting point at 165°C, 155°C softening, normal use temperature of 140°C or below, FFP2, inner material polyester needle punched fabric.

Respirators are not suitable for use in flammable, explosive and high temperature environments.

Packaging:

10 piece box or carton of 40 boxes

Order Code:

FFP2-HY8222
