## SPILL KIT MANAGEMENT SERVICE

By using our Spill Kit Management Services, your Spill Kits are always fully stocked ready for super quick response to your next emergency spill. The service is designed to assist with your sites environmental compliance in accordance with legislation.

We offer Spill Kit Management Services at periodic intervals, Quarterly, Bi-monthly or Monthly, depending on your sites specific requirements. Each on-site visit will include an itemised report of Spill Kit usage.

### EACH VISIT WILL INCLUDE:

- > Spill Kit contents replenished if required (additional fees apply to individual restock items)
- > Spill Kits cleaned & dated for due diligence
- > Itemised reporting of Spill Kit usage documented
- > Technical Support and on-site recommendations available from our trained staff

### PERIODIC OPTIONS:

QUARTERLY (4 SITE VISITS PER YEAR)

BI-MONTHLY (6 VISITS PER YEAR)

MONTHLY (12 VISITS PER YEAR)

ADDITIONAL SERVICE CALL OUT FEE

## PRO-ACTIVE SPILL KIT MANAGEMENT SERVICE

Our Pro-Active Spill Kit Management Service will include everything our standard Spill Kit Management program offers. In addition our trained staff will conduct a Mini Site Environmental Audit (once per year). The audit will highlight environmental Aspects/Impact Register, assessing key areas such as Bulk liquid storage, Storm water Drains, workshops, maintenance, safety showers, landscaping issues, Spill containment and areas of the business relating to environmental factors. The service is designed to assist with your sites environmental compliance in accordance with legislation. This service is perfect for sites aiming to comply with ISO-14001-15.

### EACH VISIT WILL INCLUDE:

- > Initial visit will include our qualified team conduct a Environmental Aspects/Impacts Assessment, non-conformance register report
- > First visit annually will include Pro-Active Site Audit – Impacts/Recommendations Report
- > Spill Kit contents replenished if required (additional fees apply to individual restock items)
- > Spill Kits cleaned & dated for due diligence
- > Spill Kits and Signage numbered for site locations
- > Itemised reporting of Spill Kit usage documented
- > Technical Support and on-site recommendations available from our trained staff

# SPILL RESPONSE TRAINING WORKSHOPS

## TOOLBOX WORKSHOP

AUSTRALIA WIDE

### COURSE DESCRIPTION:

Our Spill Response Training workshop is an interactive course, which provides the necessary skills to enable personnel to effectively respond to on-site spills. This course will assist with meeting ISO14001 accreditation and legislation compliance. The main objective of this course is to ensure that those required to respond to an incident and use the site spill kits, are prepared to take action.

**WHO SHOULD ATTEND?:** All personnel

**COURSE STRUCTURE:** Theory: Topics Covered include:

- > Environmental Legislation and compliance includes POEO Act 1997 / EPA
- > Overview of Spill Response Products
- > Dealing an Emergency Spill Incident
- > 10 Step Spill Response Guide

**COURSE DURATION:** 0.5 Hours

- > SIMULATION SESSIONS ALSO AVAILABLE

## GENERAL GUIDE TO HANDLING EMERGENCY SPILL INCIDENTS

### COURSE DESCRIPTION:

Our Spill Response Training workshop is an interactive course, which provides the necessary skills to enable personnel to effectively respond to on-site spills. This course will assist with meeting ISO14001 accreditation and legislation compliance. The main objective of this course is to ensure that those required to respond to an incident and use the site spill kits, are prepared to take action. This is a very practical course covering environmental legislative requirements: safety, spill response products and an interactive role-play based on a liquid spill incident.

**WHO SHOULD ATTEND?:** All personnel

**COURSE STRUCTURE:** Theory: Topics Covered include:

- > Environmental Legislation and compliance includes POEO Act 1997 / EPA
- > Overview of Spill Response Products
- > Dealing an Emergency Spill Incident
- > 10 Step Spill Response Guide
- > Case Studies
- > Revision-Written Quiz
- > Interactive Role-Play

**COURSE DURATION:** 1.5 Hours

## CYTOTOXIC COMPOUNDS SPILL RESPONSE WORKSHOP

### COURSE DESCRIPTION:

Our Cytotoxic Compounds Spill Response Training workshop is an interactive course, which provides the necessary skills to enable personnel to effectively respond to on-site Cytotoxic spills. The main objective of this course is to ensure that those required to respond to an incident and use the Cytotoxic spill kits, are prepared to take action and understand the effects from exposure to Cytotoxic compounds. This is a very practical course covering Safety & Environmental legislative requirements.

**WHO SHOULD ATTEND?:** Personnel who handle Cytotoxic Compounds in the workplace.

**COURSE STRUCTURE:** Theory: Topics Covered include:

- > Understanding Cytotoxic compounds & Affects from exposure
- > WH&S Requirements for transportation and storing
- > Spill Response methods and Spill Use for safe response
- > Video presentation
- > Revision-Written Quiz Assessment

**COURSE DURATION:** 1 Hour

# EMERGENCY SHOWER / EYEWASH INSPECTION

## DID YOU KNOW?

YOUR EMERGENCY SHOWERS & EYEWASH UNITS MUST BE INSPECTED AND TAGGED ANNUALLY FOR COMPLIANCE AS4775-2007

**ARE YOUR EMERGENCY SHOWERS & EYEWASH STATIONS**  
WORKING EFFECTIVELY IN THE EVENT OF AN EMERGENCY?

**DID YOU KNOW THE AUSTRALIAN STANDARDS AS 4775-2007**  
REQUIRES ALL UNITS TO BE INSPECTED & TAGGED ANNUALLY?

Super Spill Solutions offers an Emergency Shower and Eyewash Inspection service, which includes testing the performance of your units against the requirements of the Australian Standards AS 4775-2007 Call us on 1300-623-749 to speak to one of our specialists today.

replacement parts if required and major repairs may need to be conducted by a licensed plumber.

## INSPECTION INCLUDES:

- > Trained Technicians will inspect each of your emergency shower and eyewash units, identifying any non-conformances with the Australian Standard AS 4775-2007 using our audit checklist.
- > All non-conformances will be rectified and replacement parts and signage fitted with your consent.
- > Each unit is cleaned and an inspection tag fitted to record the date of inspection.
- > A written report documenting the result of the inspection will be provided, inclusive of pass or fail areas, measurements of flow rates and photographic evidence of units operations and actions required or recommendations.

# ENVIRONMENTAL SITE INSPECTIONS & PLANNING

**IS YOUR SITE COMPLIANT WITH  
ENVIRONMENTAL LEGISLATIONS?**

**DO YOU NEED ADVICE ON  
ENVIRONMENTAL BEST PRACTICE?**

We offer a range of Environmental Site Assessments, Planning and Inspection reports to address our clients needs.

Our aim is to assist your site with identifying environmental aspects, non-conformances and potential risks to help reduce Risk of environmental impacts and achieve best practice compliance.

Our Trained staff can offer a tailored solution based on your site requirements, as every business is different and require different levels of assessment.

## WHAT YOU WILL ACHIEVE FROM A BASIC ASSESSMENT!

A written report is presented including a tabled summary of non-conformances and actions required based on impact assessment risk formulas, Photographic evidence and recommendations for outcomes to assist with reducing site risks.

## ASSESSMENT BASIC AREAS INCLUDED

- > Our trained assessor will conduct a site inspection of the Overall site indoors/Outdoor areas, Stormwater management, Waste management, Spill Control/Response measures, General environmental site impacts, Maintenance/workshop, Storage tanks, Dangerous Goods storage, Dispatch/Receivable Docks/areas and refuelling bays etc.

We also provide Solutions with Spill Response Policy and Procedure documentation, Spill Response Awareness Training, Stormwater, Dangerous Goods & PPE Registers and Dangerous Goods segregation and Containment solutions.

Our focus is to deliver solutions to our clients that best suit their organisation needs and ensure your corrective plan action achieves your environmental compliance goals.

Call us today for more help with the Assessment that is right for your business.
